Frontend: React.js, Next.js Tailwind CSS

Backend & Databases: Firebase/Firestore, MongoDB

Tools & DevOps: Git, GitHub Actions, AI Tools, Vercel

PROFESSIONAL EXPERIENCE

Datatrones | Karachi, PK, Data Processing Associate (Freelance) 2024 – 2025

- Processed and structured dataset entries using Microsoft Excel with high accuracy.
- Managed data verification workflows to ensure zero-error record maintenance across active spreadsheets.

PROJECTS

[Pitch Craft](#), React.js, Tailwind CSS, Web APIs

- Architected an AI-powered business tool that generates customized startup strategy plans, target audience profiles, and business name suggestions from user prompts.
- Built a dynamic code generator and inline preview engine that renders ready-to-use, single-page website code in real time.

[Chat App](#), React.js, Firebase / Firestore, Tailwind CSS

- Engineered a real-time web messaging platform featuring instant multi-user messaging and live online/offline status updates.
- Integrated Firebase Authentication and Firestore database for secure user onboarding and real-time message synchronization

HOBBIES

Books | Coding | Breaking apart circuits | Games | Movies | Music | Reddit |
